About ProviderSync

ProviderSync is a specialist outsourcing company founded in 2025, dedicated to supporting Australian healthcare and community service providers. We combine expert administrative operations with professional IT and digital solutions to give providers a complete backend support system — all under one roof.

We exist to take the operational and technology burden off healthcare providers so they can focus on what matters most: delivering quality care to their clients.

Our Name & What It Means

Provider	Represents our clients — NDIS, Aged Care, and Early Childhood Education providers across Australia who need reliable backend support.
Sync	Represents what we do — synchronising all moving parts of a provider's backend: admin, compliance, IT, digital presence, and staff coordination into one seamless operation.

Together, ProviderSync means: we keep everything running in the background so providers stay in sync with their goals, their compliance requirements, and their clients.

Founders

Viraj Maduranga — IT & Digital Lead	Niluki Silva — Admin & Operations Lead
- WordPress & web development specialist 6+ years in IT, Linux, VPS & hosting - SEO, branding & social media strategy - Full IT setup for businesses from ground up	- Specialist in healthcare admin operations - NDIS compliance & client onboarding - Aged Care rostering & payroll coordination - ECE staff coordination & therapist recruitment

- Experience across Australian, US & Sri Lankan markets

- Deep knowledge of Australian healthcare regulations

Mission Statement

To empower Australian healthcare and community service providers with professional, reliable, and affordable backend support — so they can spend less time on admin and IT, and more time changing lives.

Target Sectors

ProviderSync specialises in supporting three key sectors of the Australian healthcare and community services industry:

1. NDIS — National Disability Insurance Scheme

- SDA (Specialist Disability Accommodation) providers
- SIL (Supported Independent Living) providers
- Small to mid-size NDIS registered providers
- Allied health businesses supporting NDIS participants

2. Aged Care

- Residential aged care facilities
- Home care package providers
- Community aged care services
- Support worker agencies

3. Early Childhood Education (ECE)

- Early childhood education centres
- Therapy providers (OT, speech pathology, physiotherapy)
- Allied health teams supporting children with disabilities
- NDIS-funded ECE support services

Core Services

A. Healthcare Administration Support

Led by Niluki Silva, our admin services are specifically designed for the Australian healthcare compliance environment:

Aged Care Admin	NDIS Admin Support
• Rostering & shift management • Payroll processing • Support worker onboarding • Invoicing & billing • Compliance documentation • Performance tracking	• Client onboarding & intake • NDIS plan management admin • SDA/SIL backend coordination • Compliance reporting • Rostering & scheduling • Claims & invoicing support

Early Childhood Education (ECE) Admin
• Staff coordination & scheduling • Therapist recruitment support (OT, speech, physio) • Fee negotiations & invoicing • Training coordination • Compliance documentation • Centre-family communications

B. IT & Digital Solutions

Led by Viraj Maduranga, our IT services give healthcare providers a complete, professional digital presence and reliable technology infrastructure:

Website Development	Social Media & Branding
• Custom WordPress website builds • Healthcare-focused design • Client intake & booking forms • Mobile-responsive layouts • Ongoing maintenance & updates • SSL, security & performance	• Business social media setup • Facebook, Instagram, LinkedIn • Brand identity & logo design • Content strategy & posting • Google Business Profile setup • Digital branding consistency

IT Infrastructure & Support	SEO & Online Presence
• Business email setup (G Suite) • Domain registration & DNS • Web hosting & VPS management • Staff IT onboarding • Remote IT troubleshooting • Software setup & configuration	• Local SEO optimisation • Google Analytics setup • Search engine indexing • Online directory listings • Review management strategy • Digital growth planning

Why ProviderSync?

Our Advantage	What It Means for Providers
Healthcare-specific expertise	We understand NDIS, Aged Care & ECE — not generic BPO
Admin + IT under one roof	No need to hire separate admin and IT vendors
Australian market knowledge	We know the compliance requirements and regulations
Small provider friendly	Affordable packages designed for growing businesses
Remote-first delivery	Flexible support without geographic limitations
Personalised service	Direct access to the founding team, not a call centre
